DETOXIFICATION SERVICES

Many individuals have arrived at a place where stopping the use of drugs and or alcohol on their own has become impossible and can be medically dangerous. The abrupt discontinuation of some substances can be life threatening, including seizures, auditory, visual and tactile hallucinations, respiratory failure and even death.

Pathways will provide you with a confidential assessment to determine the best course of action to help get you well again.

Our Licensed Medical staff will take every step to ensure your detoxification process is as comfortable and pain free as possible.

Pathways Team of Certified Alcohol and Drug Counselors will meet with you to help with your transition to the next step in your recovery and wellness.
